June 29, 2015

To the Honorable Mayor, City Council and citizens of the City of Aurora, Colorado:

The comprehensive annual financial report of the City of Aurora General Employees' Retirement Plan ("GERP") for the year ended December 31, 2014 is hereby submitted for your information and review. The Plan is a component unit of the municipal government of the City of Aurora, Colorado.

This report is prepared under the authority of Aurora City Code section 102-145(g), which requires the Retirement Board to submit a financial report to City Council and to Plan participants each year. Responsibility for the accuracy, completeness and fairness of this presentation, including all disclosures, rests with the Retirement Plan administration. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner that presents fairly the financial position and results of operations of the Plan. All disclosures necessary to enable the reader to gain an understanding of the Plan's financial activities have been included.

This comprehensive annual financial report is presented in five sections:

- The **introductory** section, which is unaudited, includes this letter of transmittal, the Plan's organizational chart and a listing of trustees, staff and service providers.
- The **financial** section includes the independent auditors' report, management's discussion and analysis, the basic financial statements and notes, required supplementary information and other supplementary information.
- The **investment, actuarial** and **statistical** sections, which are unaudited, include selected financial and demographic information presented on a multi-year basis.

Plan Background

The City of Aurora General Employees' Retirement Plan is a defined benefit pension plan created by the Aurora City Council in 1967 for the exclusive benefit of participants and their beneficiaries. Participation in the Plan is mandatory for the City's career service employees, for Council-appointed employees hired after 1997 and for the Plan's administrative staff members; the City's executive personnel have the option to participate. The Plan is intended to qualify under section 401(a) of the Internal Revenue Code and the trust created under the Plan is intended to be exempt under section 501(a).

In 2014 participating employees contributed 6.25% of their gross compensation to GERP. The City of Aurora contributed an equal amount, for a total contribution of 12.5% of pay. Under the plan changes approved by City Council in 2011, the employee contribution rate and the City's matching contribution will both increase by one-quarter percent each year until 2017, when the combined rate reaches 14% of pay. Thereafter, the contribution rate will be automatically adjusted based on the Plan's funded status.

Contributions received by GERP are held in trust, under the supervision of its Board of Trustees. The trustees have designated a custodian for Plan assets and have delegated investment authority to several registered investment advisors. A Pension Plan Administrator and support staff are employed by the Board to carry out administrative functions. The Board also contracts with consultants and advisors as needed.

Upon termination of employment, retirement, or death, a participant (or beneficiary) may qualify for a monthly pension. The amount of the pension is dependent on the participant's age, final average pay and length of service. Alternatively, participants may choose to receive a lump sum distribution of their contribution account balance and vested City contributions. Those who elect to retire and collect a regular pension benefit may also receive a supplemental benefit, which is an additional cash payment intended to assist retirees with health care expenses. Both the regular and supplemental benefits are subject to annual cost of living adjustments. A $6,250 lump sum death benefit is payable to the designated beneficiary upon the death of a retired employee who had been receiving a monthly pension.

Major Initiatives in 2014

The Retirement Board focused on implementing its new investment policy allocation last year. Five new investment managers were selected, four existing relationships received increased commitments and four relationships were terminated. In total, these changes affected the management of approximately one-third of GERP's investment portfolio.

The Board also reviewed several of the Plan's service provider relationships. The Northern Trust Company was selected to replace State Street Bank & Trust as fund custodian and benefit payment processer. The Board chose to retain Callan Associates as its investment consultant. Requests for proposals for auditing and actuarial services are planned for the coming year.

Financial Information

The Board of Trustees is vested with the responsibility for the general administration, management and proper operation of the Plan, including the determination of eligibility for benefits and the supervision of trust fund investments. As the Board's chief administrative officer, the Pension Plan Administrator has established an internal control structure. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements and that Plan assets are protected from loss, theft or misuse. The

Pension Plan Administrator also serves as secretary and treasurer of the Board and is charged with maintaining records, compiling accounting data and preparing financial statements in conformity with accounting principles generally accepted in the United States of America. The Plan's financial statements are audited and its internal control structure is evaluated annually by the independent auditor.

An annual expense budget is prepared by the Pension Plan Administrator and approved by the Board. The Board's authorization (through either the budget or a special appropriation) is required for the expenditure of any funds from the retirement trust. As demonstrated by the statements, schedules and report of the independent auditor included in the financial section of this report, the Board continues to meet its responsibility for sound operational and financial management.

Funded Status

GERP's funded ratio (based on the actuarial value of assets) was 96.4% on January 1, 2015, an increase from 92.8% in the previous year. The unfunded liability declined from $28.5 million at the start of 2014 to $15.1 million at year end. Due to the Plan's three-year smoothing of investment gains and losses, the Plan has $7.2 million in deferred gains that will be recognized in future years.

Normal cost (the cost of anticipated benefits for active participants that is allocated to the current year) was 11.10% of payroll at the start of 2015. Normal cost has been trending downward in recent years and is now below the Plan's 13.00% contribution rate for 2015. The total *actuarially determined contribution* (which includes normal cost and an amortized payment of the unfunded liability) was 12.07% of payroll for this year.

The changes to the benefit structure and the contribution rates that were adopted by Council in 2011 have put the Plan on course to eliminate its remaining unfunded liability within the next five years, provided all assumptions are realized.

Investment Activities

GERP's investment portfolio earned 7.93% in 2014, compared with a 6.03% median return for mid-sized U.S. public funds. Over the past fifteen years encompassing both rising and falling markets, GERP's performance has ranked within the top 20% of its peer group. Callan Associates Inc. prepared the analysis of investment results which is included in Section III of this report, pages 45 to 62.

All invested assets are held in trust by the Northern Trust Company, the Plan's custodian, or in the case of commingled funds and partnerships, by other independent custodians.

Independent Audit

Section 102-145(g) of the Aurora City Code requires the Board to engage a certified public accountant to conduct an independent audit of the Plan each year. CliftonLarsonAllen LLP performed the calendar year 2014 audit in accordance with auditing standards generally accepted in the United States of America, and with the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Their opinion on the Plan's financial statements is included in the financial section of this report. Plan management's discussion and analysis of the financial statements also appears in the financial section.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Aurora General Employees' Retirement Plan for its comprehensive annual financial report for the fiscal year ended December 31, 2013. This was the fifteenth consecutive year that the Plan has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgment

The Board wishes to thank the Mayor and the members of the Aurora City Council for their continued interest in and support of the Plan.

Respectfully submitted,

John M. Lichtner

INDEPENDENT AUDITORS' REPORT

The Retirement Board
City of Aurora General Employees' Retirement Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the City of Aurora General Employees' Retirement Plan (the Plan) a component unit of the City of Aurora, as of and for the years ended December 31, 2014 and 2013, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net position of the Plan as of December 31, 2014 and 2013, and the changes in net position for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of changes in net pension liability and related ratios, schedule of employer contributions, and schedule of investment returns listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Plan's basic financial statements. The other supplementary information listed in the table of contents is presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory, investment, actuarial and statistical sections listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 15, 2015, on our consideration of the Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Denver, Colorado
April 15, 2015

This section presents an overview and analysis of the financial statements of the City of Aurora General Employees' Retirement Plan (GERP or the Plan) for the years ended December 31, 2014 and 2013, and was prepared by GERP's management. It should be read in conjunction with the Plan's financial statements, the notes to the financial statements and the required supplementary information.

Financial highlights:

- The Plan's net position restricted for pensions increased by $22.1 million to $407.9 million as of December 31, 2014.

- The GERP portfolio earned a return of 7.93% for the year. Performance was led by double-digit gains from U.S. equity investments, private equity funds and real estate. Fixed income securities also had positive results. International equity was the only asset class to post a loss. The Plan's latest 3, 5 and 10-year annualized rates of return were 11.77%, 10.09% and 6.61% respectively.

- As of January 1, 2014 (the date of the most recent actuarial valuation report) GERP's funded ratio[1] was 92.8%, compared with 92.2% in the January 1, 2013 report. At the end of 2014 the Plan's actuary rolled forward the total pension liability and compared it to the Plan's fiduciary net position, as required under Government Accounting Standards Board Statement No. 67. The resulting funded ratio increased to 97.8%.

Overview of the financial statements:

GERP's financial presentation is composed of four parts: (1) the financial statements; (2) notes to the financial statements; (3) required supplementary information and (4) other supplementary information. Below is a summary of the information provided in each of these sections.

Financial statements:

The *Statements of Fiduciary Net Position* present information on the Plan's assets and liabilities and the resulting net position restricted for pensions. They indicate the fair value of GERP's investments, cash deposits and accounts payable and receivable on the last day of calendar years 2014 and 2013.

The *Statements of Changes in Fiduciary Net Position* present the Plan's transactions under the categories of *Additions* and *Deductions*. *Additions* include contributions to GERP by the City of Aurora and by participating employees, net appreciation in the fair value of investments, dividend and interest income and other miscellaneous sources of income. Investment income is reduced by investment-related expenses such as asset management fees, custody charges and consulting fees. *Deductions* include outlays for monthly pension benefits, death benefits, refunds of contributions to employees and fees paid for professional services and administrative expenses.

---

[1] The *funded ratio* is the actuarial value of assets divided by the actuarial accrued liability.

Notes to financial statements:

The *Notes to Financial Statements* provide detailed information and explanations that are essential to a more complete understanding of the Plan's financial statements.

Required supplementary information:

This section consists of three historical trend exhibits concerning the funding status of GERP, a *Schedule of Changes in Net Pension Liability and Related Ratios*, a *Schedule of Employer Contributions* accompanied by the *Notes to Schedule of Employer Contributions,* and a *Schedule of Investment Returns.* These exhibits and the actuarial assumptions and methods used by the Plan are summarized at Note 7 within the notes to the financial statements.

Other supplementary information:

The information in this section is not a required part of the basic financial statements, but is provided by the Plan for purposes of additional analysis. A *Schedule of Administrative Expenses* and a *Schedule of Investment Expenses* offer a more detailed accounting of GERP expenditures.

Financial analysis:

GERP's total assets were $408.5 million as of December 31, 2014 compared with $386.4 million as of December 31, 2013 and $345.2 million at the end of 2012. Last year was the sixth consecutive year of positive growth in assets since the 2008 financial crisis.

Total liabilities represent amounts owed to vendors, benefit payments due and payments for securities purchased. Liabilities were $0.6 million as of December 31, 2014.

A summary of GERP's net position for the years ended December 31, 2014, 2013 and 2012 is presented on the following page.

Financial analysis (continued):

Fiduciary Net Position

	December 31, 2014	December 31, 2013	2013 to 2014 Percentage Change	December 31, 2012	2012 to 2013 Percentage Change
Assets					
Cash	$ 84,936	$ 73,243	16.0%	$ 157,423	(53.5%)
Receivables	1,632,600	1,152,371	41.8%	3,036,565	(62.1%)
Prepaid expenses and other	26,880	21,128	17.9%	23,378	(9.6%)
Investments	406,781,596	385, 185,344	5.6%	342,010,296	12.6%
Furniture and equipment, net	-	-	-	-	-
Total Assets	$408,526,012	$386,432,086	5.7%	$ 345,227,662	11.9%
Liabilities					
Accounts payable	$ 50,003	$ 375,552	(33.4%)	$ 261,347	43.7%
Benefits payable	52,817	85,573	(38.3%)	46,596	83.7%
Securities purchased	277,533	88,519	213.5%	2,798,814	(96.8%)
Total Liabilities	580,353	549,644	5.6%	3,106,757	(82.3%)
Total Net Assets	$407,945,659	$385,882,442	5.7%	$ 342,120,905	12.8%

Total assets increased by 5.7% in 2014, which is less than the Plan's reported investment return of 7.93% due to the net withdrawal of $7.8 million over the course of the year to pay benefits and expenses. Rates of investment return are calculated by an independent consultant using linked, time-weighted monthly returns. Contributions and withdrawals are taken into consideration, but fees billed directly by investment managers are not.

Below are the returns for each asset class together with their respective benchmark returns. A *benchmark* is a published market index whose characteristics and performance make it a generally accepted proxy for a particular asset class. GERP's total fund benchmark is the weighted average of its individual asset class benchmarks. The actual percentage invested in each asset class is also shown in comparison to the Plan's investment policy target range. For performance measurement, any cash equivalents held by investment managers are included within their respective allocation percentages.

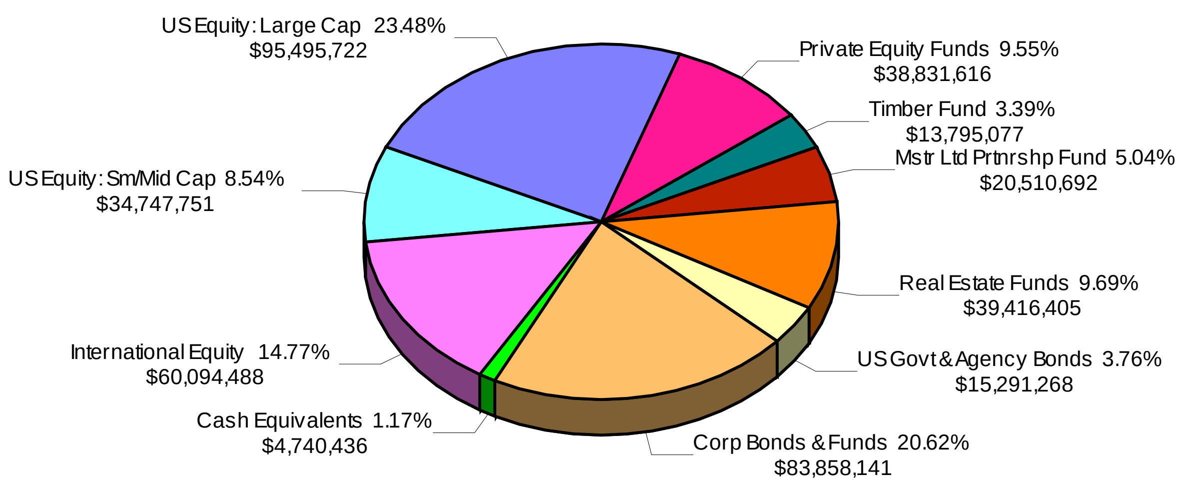
	GERP's 2014 Investment Returns by Asset Class	Benchmark Returns	Actual Investment Allocation	Investment Policy Target Range
U.S. Equity: Large cap	13.74%	13.69%	24%	17% to 24%
U.S. Equity: Small /Mid cap	5.29%	4.28%	9%	7% to 10%
International Equity	(2.35%)	(3.47%)	15%	13% to 19%
Private Equity Partnerships	15.62%	12.56%	9%	7% to 13%
Fixed Income	5.55%	5.97%	25%	21% to 29%
Real Estate	11.48%	11.59%	10%	7% to 13%
Timberland	3.78%	10.48%	3%	3% to 7%
Master Ltd Partnerships (Apr-Dec)	10.08%	4.76%	5%	3% to 7%
TOTAL FUND	**7.93%**	**7.92%**	**100%**	

Financial analysis (continued):

GERP's U.S. and international equity, private equity funds and master limited partnerships all exceeded the returns of their respective benchmarks. Fixed income, real estate and timberland performance fell below targets. For the year the total fund returned 7.93%, one basis point above its weighted average benchmark return, and above its 7.75% actuarial target as well. The total fund had earned 15.21% in 2013 and 12.27% in 2012.

GERP's asset allocation as of December 31, 2014 is shown below. In this pie chart, uninvested funds held in managers' accounts and in the Plan's operating account are combined and reported as "cash equivalents." Any uninvested cash is sweep into the custodian bank's short-term investment fund at the end of each day.

Figure 1



The Plan adjusted its investment structure in 2014 following and asset/liability study. GERP's investment portfolio has historically had lower volatility than its mid-sized public fund peers[2].

[2] GERP compares its investment program to other mid-sized public retirement plans in the U.S. with assets of $100 million to $1 billion. This peer group is compiled by Callan Associates, an independent investment consulting firm.

Financial analysis (continued):

A summary of the changes in net position for the years ended December 31, 2014, 2013 and 2012 is presented below.

Changes in Fiduciary Net Position

	2014	2013	2013 to 2014 Percentage Change	2012	2012 to 2013 Percentage Change
Additions:					
Contributions					
City of Aurora	$ 5,536,583	$ 5,007,530	10.6%	$ 4,786,740	4.6%
Plan members	5,531,417	5,021,435	10.2%	4,800,089	4.6%
Net investment income	29,146,458	51,302,607	(43.2%)	35,838,582	43.1%
Other income	21,156	42,323	(50.0%)	28,610	47.9%
Total Additions	$ 40,235,614	$ 61,373,895	(34.4%)	$ 45,454,021	35.0%
Deductions:					
Benefits	$ 16,059,746	$ 15,389,795	4.4%	$ 13,402,392	14.8%
Refunds of contributions	1,567,690	1,633,303	(4.0%)	2,744,970	(40.5%)
Administrative expenses	544,961	589,260	(7.5%)	467,563	26.0%
Total Deductions	$ 18,172,397	$ 17,612,358	3.2%	$ 16,614,925	6.0%
Net increase (decrease)	$ 22,063,217	$ 43,761,537	(49.6%)	$ 28,839,096	51.7%
Net position restricted for pensions:					
Beginning of year	$385,882,442	$342,120,905	12.8%	$313,281,809	9.2%
End of year	$407,945,659	$385,882,442	5.7%	$342,120,905	12.8%

Additions to Plan net position:

The Plan relies on contributions from the City of Aurora and GERP members, as well as income earned on investments to pay benefits and operating expenses. Under a funding plan adopted by the Aurora City Council in 2011, the member contribution rate (which had been fixed at 5.50% of pay for the previous 25 years) is scheduled to increase by 0.25% annually until it reaches 7.00%. The member contribution rate in effect for 2014 was 6.25%. All regular employee contributions are matched by the City. Under certain circumstances, Plan members are permitted to purchase service credit for periods of previous City employment, or when they have taken leave for qualified military service. These special service purchases are not matched, which accounts for the small differences between City of Aurora contributions and Plan member contributions.

The Plan earned net investment income of $29.1 million in 2014, compared with $51.3 million in 2013, and $35.8 million in 2012.

Additions to Plan net position (continued):

Other income fell to $21,157 from $42,323 in 2013 and $28,610 in 2012 as securities litigation settlements and consent payments declined. Approximately 26% of the other income earned in 2014 was paid to GERP by the City of Aurora's *Elected Officials' and Executive Personnel Defined Benefit Plan* for administrative services provided. The Plan also received a small amount in reimbursements for data preparation costs for fulfilling open records requests.

Deductions from Plan net position:

Deductions from Plan assets include monthly pension payments, death benefits, contribution refunds and administrative expenses. Spending for pension and death benefits grew by 4.4% between 2013 and 2014, compared with a 14.8% increase between 2012 and 2013. Contribution refunds once again declined in 2014 from the prior year.

Pensioners received an automatic 1.5% cost of living increase on January 1, 2014, based on the consumer price index. A 2011 Plan amendment created a lower tier of retirement benefits for new employees hired in 2012 and after. By the end of 2014 approximately 30% of the active workforce (but no current retirees) were subject to the reduced benefit tier.

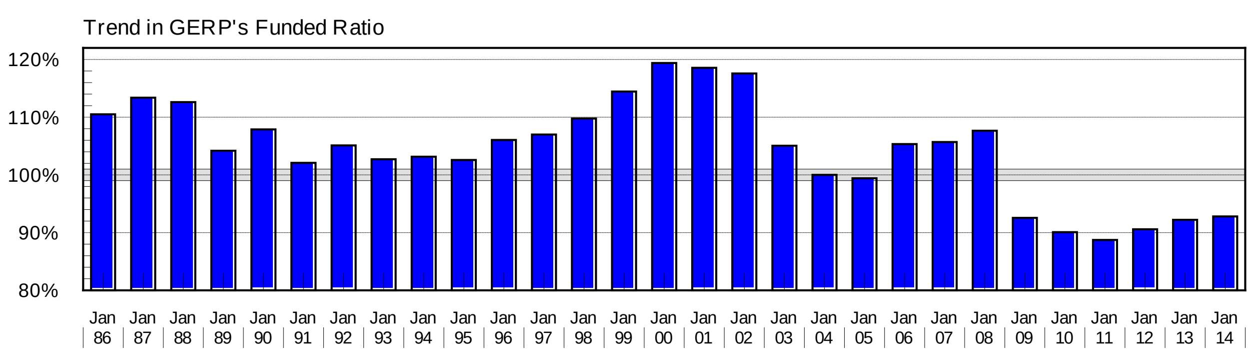
Administrative expenses fell by 7.5% in 2014 which reflected lower spending for legal fees and actuarial consulting services.

Historical trends:

The funded ratio (assets divided by liabilities) is one measure of a pension plan's ability to meet its expected benefit obligations. GERP's funded ratio increased to 92.8% according to the Plan's January 1, 2014 actuarial valuation report. By comparison, the actuarial consulting firm Milliman reported that the average funded ratio for the 100 largest U.S. public pension plans was 69.4%.

Prior to January 1, 2009, GERP's actuarial accrued liability had been fully funded in every year going back to 1986. The trend in the Plan's funded ratio for the past twenty-nine years is presented below. GERP has made steady progress in reducing the unfunded liability that developed as a result of the 2008 financial crisis.

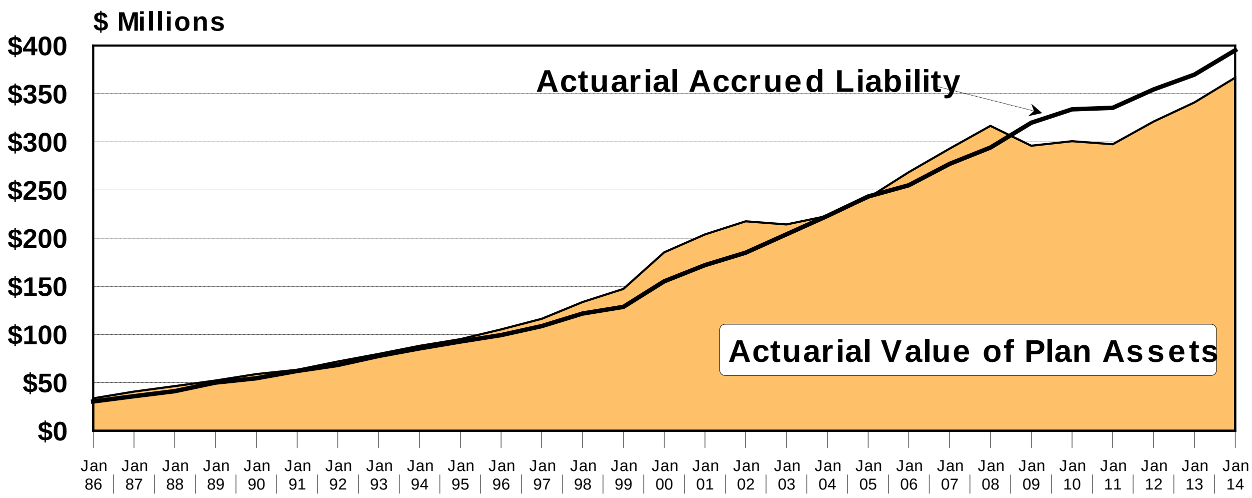
Figure 2



Historical trends (continued):

The long-term trend in the growth of the Plan's assets and liabilities is illustrated in the chart below.

Figure 3



The Plan's funded status is most strongly influenced by its investment results. The annual returns earned by GERP since 1995 appear below. The Plan's actuarial investment return assumption was 7.5% prior to 1998, 8.0% from 1998 through 2013, and 7.75% beginning in 2014. GERP's investment portfolio earned an annualized rate of return of 8.24% over the last twenty years.

The accompanying notes are an integral part of the financial statements.

NOTE 1 – PLAN DESCRIPTION

The City of Aurora General Employees' Retirement Plan (the Plan) is a single-employer, defined benefit pension plan covering substantially all full-time and part-time employees of the City of Aurora, Colorado, including the administrative staff of the Plan, but excluding certain executive and council-appointed employees, police officers, paid firefighters, elected officials, and temporary employees. The Plan is maintained for the exclusive benefit of the employees of the City of Aurora and their beneficiaries. The Plan is not subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). However, the Plan is qualified as a tax-exempt plan under Sections 401(a) and 501(a) of the Internal Revenue Code. Employee contributions are required as a condition of employment and are matched equally by the City of Aurora.

The Plan is considered a component unit of the City of Aurora, and is included in the City of Aurora's financial reporting entity as a pension trust fund. The City of Aurora Retirement Board (the Board), established by the City of Aurora, administers the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America and reporting standards applicable to governmental accounting for public employee retirement systems. Employee and employer contributions are recognized as revenues when due, pursuant to formal commitments, as well as statutory or contractual requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Governmental Accounting Standards Board (GASB) Pronouncements

The Plan adopted GASB Statement No. 67, *Financial Reporting for Pension Plans; an Amendment of GASB Statement No. 25,* it replaces the requirements of Statements No. 25 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of Statements No. 25 and No. 50 remain applicable to pension plans that are not administered through trust or equivalent arrangements. This statement is to improve financial reporting of pension plans through enhanced financial note disclosures included in note four of the financial statements, and expanded Required Supplementary Information of net pension liability information and ratios in schedules one through four.

Investments

At December 31, 2014 and 2013, the Plan's securities are in the custody of and controlled by Northern Trust Corporation and State Street Bank and Trust Company, the master custodians, respectively. The Plan contracts with investment managers to manage all of the Plan's investments. The City of Aurora General Employees' Retirement Board has sole discretion over the investments of the Plan. Board policies allow investments consisting of government, corporate and international bonds, domestic and international equities, mutual funds, limited partnership holdings, real estate, mortgages and other investments.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Plan investments are reported at fair value. Short-term investments are carried at cost, which approximates fair value. Securities and funds traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Real estate funds, not actively traded on a national or international exchange, are valued based upon periodic appraisals of the real estate underlying the investment units held by the Plan. Alternative investments represent investments in private equity partnerships in which the Plan enters under limited partnership agreements. For alternative investments where no readily ascertainable fair value exists, management reviewed information from the general partner of the partnerships, in consultation with investment advisors, and determined the fair values of the individual investments.

The Plan presents, in the statement of changes in Plan net position, the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains and losses and the unrealized appreciation and depreciation on those investments. Purchases and sales are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

There are certain market risks, credit risks, foreign currency exchange risks, and event risks which may subject the Plan to economic changes occurring in certain industries, sectors or geographies.

Derivatives

The Plan is permitted to own derivative investments. During the years ended December 31, 2014 and 2013, the Plan's only derivative investments were in connection with managed (mutual) funds. Because the Plan does not own any specific identifiable investment securities held by managed funds, the market risk associated with any derivative investments held in these funds is not apparent. The degree of market risk depends on the underlying portfolios of the funds, which were selected by the Plan in accordance with its investment policy guidelines including risk assessment.

Furniture and Equipment

Furniture and equipment is carried at cost. Depreciation expense is computed using the straight-line method based on the estimated five year useful lives of the related assets. Accumulated depreciation at December 31, 2014 and 2013 was $26,300. At December 31, 2014 and 2013, furniture and equipment is fully depreciated.

Administrative Expenses

The cost of administering the Plan is financed through the contributions and investment earnings that it receives.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Actuarial Valuation

The information included in the required supplementary schedules is based on the actuarial valuation performed as of January 1, 2014 with the measurement date and reporting date as of December 31, 2014 to comply with the requirements of GASB No. 67. Significant actuarial assumptions used in the valuation are included in the notes to the required supplementary schedules.

NOTE 3 – CASH DEPOSITS

Deposits are exposed to custodial credit risk if they are uninsured and uncollateralized. Custodial credit risk is the risk that, in the event of bank failure, the Plan will not be able to recover the value of its deposits. The Plan does not have a formal policy for custodial credit risk. The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized.

The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The fair value of the collateral must be at least equal to the aggregate uninsured deposits.

The State Commissioner for banks and financial services is required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools. At December 31, 2014 and 2013, the Plan had $84,936 and $73,243, respectively held in cash deposits. All amounts for both years were fully insured by federal depository insurance. Therefore at December 31, 2014 and 2013, the Plan had no cash deposits that were exposed to custodial credit risk.

NOTE 4 – INVESTMENTS

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the Plan. Credit risk exposure is dictated by each manager's agreement. Each portfolio is managed in accordance with investment guidelines as stated in the Plan's investment policy which was revised and became effective on July 17, 2014. These guidelines are specific to two strategies (core and core plus) within the fixed income asset class.

The *core* portfolio will include the following:

- Debt instruments issued by the U.S. Government, its Agencies and Instrumentalities.
- Debt instruments that have been issued by domestic entities rated BBB- or Baa3 or above by Standard & Poor's Rating Service or Moody's, respectively.
- Dollar denominated debt of comparable quality issued by non-domestic entities in the United States, including securities issued under U.S. Securities and Exchange Commission rule 144(A); and mortgage backed and asset backed securities of investment grade quality.
- For purposes of diversification, the exposure to any single issuer, other than securities issued by the U.S. Treasury or a Government Sponsored Enterprise, shall not exceed 5% of the market value of the portfolio. Exposure to any single issue or mortgage pool issued by a Government Sponsored Enterprise shall not exceed 5% of the market value of the portfolio.
- Securities that derive their returns from factors other than interest rates are not permitted in the fixed income portfolio. Examples of such securities are structured notes whose returns are tied to currencies or commodity prices.

The *core plus* portfolio will follow the above guidelines with the following exceptions:

- While the overall portfolio credit quality shall be maintained at investment grade, up to 25 percent of the portfolio at market value may be invested in securities rated below investment grade. Split rated securities will be governed by the lower designation.
- Up to 20 percent of the portfolio at market value may be invested in securities issued by foreign issuers and denominated in foreign currencies.
- The *core plus* manager has received authorization to use options, forwards, and futures to hedge currency exposure.
- For investment in a *core plus* commingled fund, the manager is authorized full discretion to use derivative instruments, consistent with the fund prospectus.

NOTE 4 – INVESTMENTS (CONTINUED)

At December 31, 2014 and 2013, the Plan held the following fixed income investments with respective quality ratings, excluding those obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government, which are not considered to have credit risk.

	2014		
Description	**Credit Quality Rating**	**Fair Value**	**% of Total**
U.S. Agency Bonds	Aaa/AAA	$ 1,508,031	1.8%
Govt. Mtg. Backed	Aaa/AAA	1,679,028	2.0%
Corporate Bonds	Aaa/AAA	1,390,591	1.6%
	Aa/AA	5,541,637	6.5%
	A	15,396,949	18.0%
	Baa/BBB	11,030,453	12.9%
Bond Fund	Aa/AA	48,819,484	57.2%
Total Corporate Bonds and Funds		$ 85,366,173	100.0%

	2013		
Description	**Credit Quality Rating**	**Fair Value**	**% of Total**
Govt. Mtg. Backed	Aaa/AAA	$ 1,914,344	2.0%
Corporate Bonds	Aaa/AAA	1,909,068	2.0%
	Aa/AA	3,360,331	3.5%
	A	16,388,101	17.0%
	Baa/BBB	11,279,533	11.7%
Bond Fund	Aa/AA	46,632,782	48.5%
TIPS Fund	Aaa/AAA	14,726,882	15.3%
Total Corporate Bonds and Funds		$ 96,211,041	100.0%

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Interest rate risk exposure is dictated by each manager's agreement. Each portfolio is managed in accordance with investment guidelines as stated in the Plan's investment policy which was revised and became effective on July 17, 2014. These guidelines are specific to three strategies (core and core plus) within the fixed income asset class.

- The *core fixed income portfolio* is to maintain duration within plus or minus 25 percent of the duration of the Barclay's Capital Government/Credit Index.

- The *core plus portfolio* is to maintain duration within plus or minus 25% of the duration of the Barclay's Capital Aggregate Index.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Trustees. The Board of Trustees for the Plan has formally adopted an investment policy that allows investment maturities greater than five years.

NOTE 4 – INVESTMENTS (CONTINUED)

Using the specific identification method, the Plan had the following investments and maturities at December 31, 2014:

		Investment Maturities (in years)			
Investment Type	**Fair Value**	**Less than 1**	**1-5**	**6-10**	**>10**
Industrial Bonds	$ 16,354,046	$ 881,924	$ 7,188,008	$ 6,277,645	$ 2,006,469

*Average maturity for the Corporate Bond Fund is 5.44 years

** Average maturity for the TIPS Fund is 7.97 years

Custodial Credit Risk – Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Plan has no formal policy for custodial credit risk. At December 31, 2014 and 2013, the Plan did not identify any investments subject to custodial credit risk.

Concentration of Credit Risk – Concentration of credit risk is the risk of loss attributed to the magnitude of the Plan's investment in a single issuer. For the fixed income investment manager, the Plan's investment policy states that for purposes of diversification, the exposure to any single issuer, other than securities guaranteed by the U.S. Treasury or issued by a Government Sponsored Enterprise, shall not exceed 5% of the fair value of the portfolio. Also, exposure to any single issue or mortgage pool issued by a Government Sponsored Enterprise, shall not exceed 5% of the fair value of the portfolio. For the domestic equity investment manager,

NOTE 4 – INVESTMENTS (CONTINUED)

the Plan's investment policy states that the fair value of any single security holding should be limited to a weight of 5% of the portfolio, or 150% of the security's weight in the benchmark, whichever is higher. There is no formal policy for concentration of credit risk for the international equity and real estate investment managers.

At December 31, 2014 and 2013, the Plan did not have investments in any one organization representing 5% or more of the Plan's assets other than the following indexed and commingled Funds:

	2014	
Investment	**Value**	**% of Investments**
BlackRock Equity Index Fund A	$ 95,495,722	23.6%
Pimco Total Return Fund	48,819,484	12.1%
Dodge & Cox International Stock Fund	31,493,057	7.8%
Harvest MLP Income Fund	20,510,692	5.1%

	2013	
Investment	**Value**	**% of Investments**
BlackRock Equity Index Fund A	$ 99,875,494	26.0%
Pimco Total Return Fund	46,632,782	12.2%
Dodge & Cox International Stock Fund	31,468,827	8.2%
SSGA International Alpha Select SL Fund	25,370,213	6.6%

Foreign Currency Risk – Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment or deposit. The Plan's currency risk exposure resides within investments in international equity mutual funds and one private equity limited partnership. While the Plan does not currently have a Foreign Currency Risk policy within its formal Investment Policy, the Plan has delegated responsibility for currency management to its international equity managers.

The Plan's exposure to foreign currency risk as of December 31, 2014 and 2013 is disclosed by investment type below:

	Fund valued in	Currency Exposure	2014	2013
International equity mutual funds	US dollars	Various currencies worldwide	$ 60,094,488	$ 61,678,720
HarbourVest International Private Equity Partners VI	Euros	Euro, US dollar, British pound, Swedish krona, Japanese yen, Australian dollar	3,066,207	1,872,406
			$ 63,160,695	$ 63,551,126

NOTE 5 – CONTRIBUTIONS

Membership of the Plan consists of the following at January 1, 2014 and 2013, the dates of the most recent actuarial valuations:

	2014	2013
Retirees and beneficiaries receiving benefits	757	715
Terminated Plan members entitled to but not yet receiving benefits	235	210
Active Plan members	1,605	1,564
	2,597	2,489

The actuarial study is considered by the Plan's Board when reviewing the funding policies as established by City ordinance. Contribution percentages are established by, and may be amended by the City of Aurora.

The Plan's funding policy during 2014 and 2013 required employees to contribute 6.25% and 6.00%, respectively, of their covered compensation to the Plan, and required matching contributions by the City of Aurora. The City of Aurora's covered payroll and total payroll paid to employees during 2014 and was $87,631,250 and $187,379,810, respectively. The covered payroll and total payroll paid to employees during 2013 was $82,619,797 and $179,384,474, respectively.

Effective January 1, 2012, the Plan was amended as of October 31, 2011 through City of Aurora Ordinance 2011-29 increasing the required employee contribution to 6.25% for 2014, and increasing the contribution rate .25% each year through 2017. The City of Aurora will continue to match employee contributions.

NOTE 6 – BENEFITS

The Plan provides retirement benefits, as well as death, disability, and supplemental benefits. Plan benefits are established by, and may be amended by the City of Aurora.

Contribution Refunds

Employees with less than five years of credited service at date of termination are required to receive a refund of their contributions, including interest at 4% since January 1, 2010 plus their vested City contribution. Employees with five or more years of credited service may elect to receive a refund. For participants in the Plan prior to January 1, 2012, (Tier 1) the amount of a participant's vested City contributions is a 25% match of the employee's contributions and interest for less than one year of credited service, increasing by 5% for each year of credited service completed, to a maximum 100% match. For participants who first became participants in the Plan after December 31, 2011, (Tier 2), there is no vesting in the City contributions until the participant has five years of credited service. After five years, the amount of the participant's vested City contributions shall be 50% of the participant's contribution accumulation, increasing by 5% for each whole year of credited service completed, to a maximum 100% match.

NOTE 6 – BENEFITS (CONTINUED)

Normal Retirement

Normal retirement age is 65 for participants in the Plan prior to January 1, 2012 and 67 for participants who first joined the Plan after December 31, 2011. Normal retirement benefits are the greater of 1.75% of final average monthly compensation, multiplied by years of credited service, including fractional years, or the annuitized value of the contribution refund described above. Final average monthly compensation is the average pay an employee received (excluding overtime and non-regular remuneration) during his/her highest paid 36 consecutive months with the City within the employee's last 10 years of employment. Optional forms of benefit are available in lieu of the single life annuity, in order to provide survivorship benefits.

Participants in the Plan prior to January 1, 2012 automatically receive annual cost of living adjustments linked to the Consumer Price Index, and limited to 5% per year. Participants who first joined the Plan after December 31, 2011 may be granted cost of living adjustments at the discretion of the Board, at a rate not to exceed the rate of increase given to participants in the Plan prior to January 1, 2012.

A supplemental benefit is provided to all retirees who have five or more years of credited service and is prorated for service of less than 20 years. Periodic cost of living adjustments to the supplemental benefit may be approved by the Plan's Board of Trustees and are limited to 5% per year.

Early Retirement

If termination occurs before normal retirement age, participants who are age 50 or older with at least ten years of credited service may elect to begin receiving early retirement benefits. Reductions for early retirement will be applied to the normal retirement benefit if the sum of a participant's years of age and credited service is less than 80 (the Rule of 80). The reduction for participants in the Plan prior to January 1, 2012 is 2% for each year a participant is short of attaining the sooner of normal retirement age or the Rule of 80, plus an additional 4% for each year the participant is below age 55. For participants who first joined the Plan after December 31, 2011 the reduction is 6% for each year a participant is short of attaining the sooner of normal retirement age or the Rule of 80.

Deferred Vested Benefits

Participants with at least five years of credited service who terminate before normal retirement age may leave their contribution accumulation with the Plan and opt to receive an early or normal retirement benefit at a later date.

Disability Retirement Benefits

Participants who meet the eligibility requirements for the City of Aurora's long-term disability insurance program continue to earn credited service during the period of time they collect disability insurance benefits. Once insurance payments have ended, the Plan's disability retirement benefit is calculated in the same manner as the normal retirement benefit, using the higher of the average highest paid 36 consecutive months of compensation or the monthly rate of compensation at the time of disability. Early retirement reductions may apply if benefits begin before normal retirement age.

NOTE 6 – BENEFITS (CONTINUED)

Death Benefits

The beneficiary of a deceased active employee or deferred vested participant may be eligible to receive a contribution refund or a monthly pension benefit, depending on the age and credited service the participant had earned.

At retirement, a participant may designate a joint annuitant to receive pension benefits upon his/her death. The Plan also pays a one-time lump sum death benefit of $6,250 to the beneficiary designated by the retiree. This payment is separate from, and in addition to, any other benefits received.

NOTE 7 – NET PENSION LIABILITY

The components of the net pension liability of the Plan at December 31, 2014 is as follows:

Net Pension Liability	
Total pension liability	$ 416,936,314
Fiduciary net position	407,945,659
Net pension liability	$ 8,990,655
Fiduciary net position as a % of total pension liability	97.84%
Covered payroll	$ 88,399,267
Net pension liability as a % of covered payroll	10.17%

Actuarial Assumptions

The assumptions and methods presented below was determined based upon the actuarial valuations at the dates indicated. Additional information as of the latest actuarial valuation follows:

Valuation date	January 1, 2014	January 1, 2013
Actuarial cost method	Entry age normal	Entry age normal
Amortization method	Level percent – open	Level percent – open
Remaining amortization period	30 years	30 years
Asset valuation method	3-year smoothed market; 20% corridor	3-year smoothed market 20% corridor
Inflation	3.25%	3.5%
Salary increases including inflation	3.25% - 6.0%	3.5% - 7.5%
Investment rate of return	7.75%	8.0%
Cost of living adjustments	3.5% on base (Tier 1) 0.0% on base (Tier 2) 0.0% on supplemental	3.5% on base (Tier 1) 0.0% on base (Tier 2) 0.0% on supplemental

NOTE 7 – NET PENSION LIABILITY (CONTINUED)

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return were adopted by the Plan's trustees after considering input from the Plan's investment consultant(s) and actuary(s). For each major asset class that is included in the pension plan's target asset allocation as of January 1, 2014, these best estimates are summarized in the following table:

Asset Allocation

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Fixed Income	25.00%	2.23%
Domestic Equity	29.00%	5.98%
International Equity	16.00%	5.35%
Private Equity	10.00%	6.00%
Real Estate	10.00%	3.87%
Alternative Investments	10.00%	5.08%
Cash	0.00%	0.00%
Total	100.00%	

Single Discount Rate

A Single discount rate of 7.75% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.75%. The projection of cash flows used to determine this single discount rate assumed that Plan member contributions and City contributions will be made at the current contribution rates. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 7 – NET PENSION LIABILITY (CONTINUED)

Sensitivity of Results

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the Plan's net liability, calculated using a single discount rate of 7.75%, as well as what the Plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

Sensitivity of Net Position Liability to the Single Discount Rate Assumption

1% Decrease 6.75%	Current Single Discount Rate Assumption 7.75%	1% Increase 8.75%
$59,893,371	$8,990,655	-$30,457,708

NOTE 8 – COMMITMENTS

Leases

The Plan leases office space under an operating lease that expires in February 2018. Future minimum lease payments are as follows:

Year Ending December 31,		
2015	$	37,760
2016		38,843
2017		39,927
2018		6,685
Total	$	123,215

Rent expense for the years ended December 31, 2014 and 2013, was $37,203 and $35,741, respectively.

Partnership Capital Commitments

The Plan is a party to multiple private equity and timberland limited partnership agreements, which terminate from 2017 to 2023. The Plan is also a party to real estate trusts and a managed limited partnership, formed to have perpetual existences. Under the terms of the agreements, the Plan has pledged to invest $155,840,400 and $111,498,000 as of December 31, 2014 and 2013, respectively. Failure by the Plan to fund a capital call is considered a default under the agreements and various penalties, as defined, may be imposed upon the Plan for such failure. The commitment period for all partnerships extends until the Plan's capital commitment is fulfilled, or the partnership's term is reached. At December 31, 2014 and 2013, the Plan had remaining unfunded capital commitments of $78,992,675, and $46,998,750, respectively.

NOTE 9 – RISK MANAGEMENT

The Plan is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions, injuries to employees and natural disasters. Losses are covered by the Plan's risk management policies and agreements, including commercial insurance purchased by the Plan. The Plan has not had claims on losses in the past three years.

NOTE 10 – TAX STATUS

The Plan received a favorable determination letter from the Internal Revenue Service dated June 24, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended and restated since receiving the determination letter, the Plan administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and remains in tax exempt status. The letter relates only to the status of the Plan under the Internal Revenue Code and is not a determination regarding the effect of other federal or local statutes.

NOTE 11 – PLAN TERMINATION

Upon a complete or partial termination of the Plan, the rights of each affected participant to benefits accrued under the Plan to the date of such discontinuance, to the extent then funded, shall be non-forfeitable. Upon a partial or complete termination of the Plan or a permanent discontinuance of contributions to the Plan, the proportionate interests of each affected participant and beneficiary shall be determined by the actuary.

NOTE 12 – RELATED PARTIES

The Plan's Board of Trustees consists of seven voting members. Three voting members are employees of the City, who are elected by the employees of the City, and are participants in the Plan. Three more voting members are qualified electors of the City who have resided in the City at least one year. These members are appointed by City Council and cannot be employees or officials of the City. The last voting member is a resident of the City for at least one year and is elected by the six other members noted above. Non-voting members are the City Manager, Director of Human Resources and the Director of Finance.

The City code also names the City Attorney as the legal consultant for the Plan's Board of Trustees. The Board may retain outside legal counsel to serve under its direction.

(1) Management fees for private equity investments with Abbott Capital Management and HarbourVest Partners and timberland investments with Molpus Woodlands Group, as well as the Harvest MLP Income Fund are based on a percentage of committed capital. Fees for the Heitman private real estate investment are based on the fair value of that portfolio. Each of these managers deducted its fee from the Plan's investment and reported those amounts, which are shown above.

Management fees for commingled fund investments with American Century, American Funds, BlackRock Realty, Cohen & Steers Capital Management, Dodge & Cox and PIMCO were deducted from net assets at the fund level and the charges allocated to the Plan were not separately reported. The fees charged by those funds are based on the expense ratios disclosed in their management agreements or prospectuses and are applied to the average portfolio balance at fair value. Expense ratios for 2014 and 2013 ranged from 0.46% to 1.06% on total average portfolios of approximately $119 million and $94 million for 2014 and 2013, respectively. The Plan estimates that the fees deducted by those managers totaled approximately $767,000 and $598,000 for 2014 and 2013, respectively.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

City of Aurora Retirement Board
City of Aurora General Employees' Retirement Plan
Aurora, Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of fiduciary net position, and the related statements of changes in fiduciary net position of City of Aurora General Employees' Retirement Plan, as of and for the years ended December 31, 2014 and 2013, and the related notes to the financial statements, which collectively comprise Plan's basic financial statements, and have issued our report thereon dated April 15, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Plan's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of Plan's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Plan's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CliftonLarsonAllen LLP

Denver, Colorado
April 15, 2015

City of Aurora
General Employees' Retirement Plan

Investment Section

The introduction to this section and the exhibits detailing the largest holdings and brokerage commissions paid were compiled by the plan administrator. The investment performance analysis was prepared by Callan Associates, Inc., an independent consultant.

Investment Policy Statement

Through the investment policy statement, the Retirement Board declares its fiduciary responsibility to invest and manage Plan assets as a prudent investor would, exercising reasonable care, skill and caution. Assets are to be managed for the exclusive benefit of Plan participants, retirees and beneficiaries. Board members are prohibited from managing assets in any way that might reflect, or appear to reflect, a conflict of interest. All records of investment holdings and transactions are available for public inspection.

The objective for the total fund is to earn a rate of return over the long term that is sufficient to fulfill the Plan's 7.75% actuarial return assumption and to meet benefit obligations without exceeding the level of risk deemed appropriate. A strategic asset allocation has been derived through a portfolio optimization process, based on the Plan's time horizon, risk tolerance, performance expectations and asset class preferences. Asset diversification is intended to reduce the risk of the total fund, enabling the Plan to include a greater proportion of higher returning investments than would otherwise be the case. The policy specifies an acceptable range of variance around the target allocations for each asset class, beyond which, rebalancing is required.

The policy defines the legal, organizational and philosophical criteria governing the selection and retention of external investment managers and lists their duties and responsibilities. Both general guidelines for security selection and trading strategy, and specific limitations applicable to each asset class are provided. The standards against which manager performance is to be evaluated are explained, including benchmark indexes, peer groups and relevant measures of risk.

Portfolio Management and Analysis

Callan Associates provides performance measurement services, conducts manager searches and consults to the Board on investment matters.

The Plan's investment performance has compared favorably against the mid-sized public fund peer group results compiled by Callan (shown below).

	Latest 1 Year	Latest 3 Years (annualized)	Latest 5 Years (annualized)	Latest 10 Years (annualized)
GERP return	7.93%	11.77%	10.09%	6.61%
Median public fund	6.03%	11.19%	9.28%	6.44%

Denver Investments (hired in 1990), manages 12.7% of invested assets in a domestic core fixed income account with an emphasis on investment grade corporate securities. The remainder of the fixed income allocation is invested in the *PIMCO Total Return Fund (2002).* The PIMCO fund is categorized as "core plus," which differs from traditional core fixed income investing in that the manager also has the discretion to hold high yield bonds, foreign-issued debt securities (including emerging markets) and has the authority to use derivative instruments.

GERP's domestic equity allocation is divided between *BlackRock Institutional Trust (formerly Barclays Global Investors, hired in 2004)* with 23.8% and *Smith, Graham & Company (formerly Ark Asset Management, hired in 1999)* with 8.8%. The BlackRock commingled fund replicates the Standard & Poor's 500 Index. Smith Graham actively manages a small and mid-cap value portfolio.

Dodge & Cox (hired in 2007), Capital Group (2014) and *American Century Investments (2014)* share responsibility for the Plan's 15.0% international equity allocation. The three firms utilize actively managed commingled funds to gain exposure to developed non-U.S. markets, emerging markets and small cap opportunities.

Real estate investments comprise 9.9% of the portfolio, with roughly one-third in the *BlackRock Granite Property Fund (previously known as the MetLife Tower Fund, and owned since 1988)* and one-third in the *Heitman America Real Estate Trust (2012).* Both are open-end core real estate funds that buy, sell, develop and manage office, residential, retail and industrial properties throughout the U.S. The remainder of the Plan's real estate investment is in a global real estate securities (REIT) fund managed by *Cohen & Steers Capital Management (1997).*

Beginning in 2002, the Board authorized a series of private equity investments encompassing venture capital, buyouts, mezzanine financing and distressed debt. Fourteen "fund of funds" limited partnerships managed by *HarbourVest Partners* and *Abbott Capital Management* have been selected as the investment vehicles. As of December 31, 2014 the Plan's private equity commitments totaled $95.8 million but only $46.6 million (49% of committed capital) had been drawn down by the general partners for investment. Private equity partnerships represent approximately 9.3% of invested assets.

More recently, the Board established a 10% target allocation for real return assets in order to provide protection against future inflation. GERP has committed a total of $30 million to the *Molpus Woodlands Group (2011)*, a timberland investment manager. At year-end 47% of committed capital had been drawn down by Molpus. In addition, *Harvest Fund Advisors (2014)* was selected to manage a master limited partnership fund focused on the domestic energy industry.

Report on Investment Activity

The investment performance report appearing on pages 45 through 62 was prepared by Callan Associates and represents the Plan's investment positions and results for the periods ending December 31, 2014.

The exhibits summarizing investment holdings and brokerage commissions on pages 63 and 64 were prepared by the plan administrator from data provided by the custodian, the Northern Trust Company.

Cash and short-term cash investments held for the payment of benefits and operating expenses are not included in the investment report that follows. Those accounts totaled $3,979,340, slightly less than 1% of the Plan's net position at December 31, 2014.

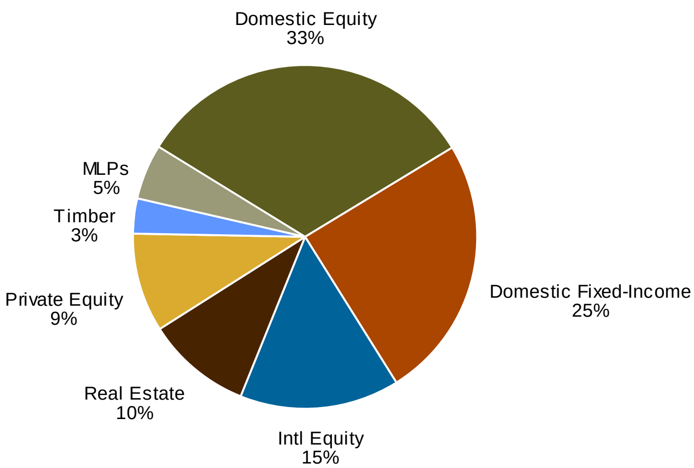
Performance measurement methodology

The rates of return on pages 46 through 62 were calculated by Callan Associates. They are linked, time-weighted monthly returns computed on a gross basis before deductions for fees and expenses, except in the case of mutual funds whose performance is reported net of fees. Returns are based on the fair value of securities held at the end of each month, including accrued income. Market values are recomputed whenever there are cash flows to or from investment accounts. Account valuations are adjusted to take into consideration amounts payable for purchases and receivable from sales. The private equity IRR and multiples shown on page 60 were calculated consistent with that industry's standards.

Actual vs Target Asset Allocation
As of December 31, 2014

The top left chart shows the Fund's asset allocation as of December 31, 2014. The top right chart shows the Fund's target asset allocation as outlined in the investment policy statement. The bottom chart ranks the fund's asset allocation and the target allocation versus the Public Fund Sponsor Database.

Actual Asset Allocation



Target Asset Allocation

The rates of return reported below for investment managers are calculated by linking the time-weighted monthly returns based on the fair value of securities held at the end of each month, including accrued income. Negative returns are shown in red, positive returns in black. Returns for one year or greater are annualized. The first set of returns for each asset class (printed in bold) represent the composite return for all accounts within that asset class.

Smith Graham & Co.
Period Ended December 31, 2014

Investment Philosophy

Smith Graham & Co. believes that incremental returns can be achieved within the small cap universe by combining a systematic quantitative approach with a traditional fundamental analysis. The research universe consists of all companies with market capitalization between $250 and $2 billion, with a minimum trading history of 3 years. Quantitative models identify the top 20% of the universe based on value characteristics. These top candidates are subjected to fundamental analysis to construct a portfolio of 50-75 stocks. The Blended index reflects the Russell 2000 through June 2014 and Russell 2500 thereafter.

Quarterly Summary and Highlights

- Smith Graham & Co.'s portfolio posted a 6.64% return for the quarter placing it in the 45 percentile of the CAI Small/MidCap Broad Style group for the quarter and in the 26 percentile for the last year.
- Smith Graham & Co.'s portfolio outperformed the Russell 2500 Value Index by 0.56% for the quarter and outperformed the Russell 2500 Value Index for the year by 2.63%.

Dodge & Cox Intl Equity
Period Ended December 31, 2014

Investment Philosophy

The philosophy guiding the management of Dodge & Cox's equity portfolios is built on traditional investment principles. They seek to build a portfolio of individual companies where the current market valuation does not adequately reflect the company's long-term profit opportunities. They maintain a long-term focus, conduct their own research, and employ a rigorous price discipline. The approach is research intensive; decisions are based on individual company analysis by an internal team of investment professionals. They evaluate each potential investment based on a three- to five-year investment horizon. The Dodge & Cox fund was incepted 2/07. The first full quarter of performance was 2nd Quarter, 2007.

Quarterly Summary and Highlights

- Dodge & Cox Intl Equity's portfolio posted a (4.66)% return for the quarter placing it in the 76 percentile of the CAI MF - Non-US Equity Style group for the quarter and in the 10 percentile for the last year.
- Dodge & Cox Intl Equity's portfolio underperformed the MSCI ACWI ex US Index by 0.85% for the quarter and outperformed the MSCI ACWI ex US Index for the year by 3.51%.

American Funds Europacific Growth
Period Ended December 31, 2014

Investment Philosophy

Capital Group's approach to non-U.S. investing is research-driven. Their bottom-up fundamental approach is blended with macroeconomic and political judgments on the outlook for economies, industries, currencies and markets. The fund uses a "multiple manager" approach where individual portfolio managers, each with different styles, manage separate sleeves of the strategy independently. Sleeves are combined to form the fund. Individual managers are selected so that the aggregate fund adheres to its stated objective of capital appreciation. The Europacific Growth fund was incepted in the plan in April 2014. The first full quarter of performance was 3rd quarter 2014. Performance prior to this date reflects Europacific Growth mutual fund.

Quarterly Summary and Highlights

- American Funds Europacific Growth's portfolio posted a (1.63)% return for the quarter placing it in the 19 percentile of the CAI Non-U.S. Equity Style group for the quarter and in the 21 percentile for the last year.
- American Funds Europacific Growth's portfolio outperformed the MSCI ACWI ex US Index by 2.18% for the quarter and outperformed the MSCI ACWI ex US Index for the year by 1.37%.

American Century Non-US Small Cap
Period Ended December 31, 2014

Investment Philosophy

American Century's philosophy of growth investing is centered on the belief that accelerating growth in earnings and revenues, rather than the absolute level of growth, is more highly correlated to stock price performance. This philosophy often directs analysts to research different companies than other growth managers, as they do not require an absolute threshold of earnings or revenue growth. This philosophy allows American Century to take advantage of both the normal price appreciation that results from a company's earnings growth, and the markets re-rating of a company's price-to-earnings multiple. The goal is to construct a portfolio of international stocks that are experiencing accelerating growth that are believed to be sustainable over time. The American Century Non-US Small Cap Fund was incepted May 2014. The first full quarter of performance was 3rd quarter 2014. Performance prior to this date reflects the American Century Non-US Small Cap composite.

Quarterly Summary and Highlights

- American Century Non-US Small Cap's portfolio posted a (3.42)% return for the quarter placing it in the 75 percentile of the CAI International Small Cap Style group for the quarter and in the 79 percentile for the last year.
- American Century Non-US Small Cap's portfolio outperformed the ACWI Sm Cap ex US by 0.55% for the quarter and underperformed the ACWI Sm Cap ex US for the year by 3.09%.

Heitman America
Period Ended December 31, 2014

Investment Philosophy

Heitman America Real Estate Trust, L.P. is a Delaware limited partnership, organized as a perpetual-life, core open-ended commingled fund to invest in real estate assets. The Fund seeks to deliver to its investors a combination of current income return and moderate appreciation. In acquiring individual assets for HART, Heitman adheres to the following principles: Buy in major markets and build a portfolio that is diversified by property type, economic exposure and geography. Buy assets with strong site attributes, such as proximity to amenities, complementary land uses and transportation networks. Buy well-constructed assets with features that will continue to appeal to tenants over long periods of time. Heitman was incepted 6/12. The first full quarter of performance was 3rd Quarter, 2012. Historical data reflects Heitman America Real Estate Trust.

Quarterly Summary and Highlights

- Heitman America's portfolio posted a 1.34% return for the quarter placing it in the 100 percentile of the CAI Open-End Real Estate Funds group for the quarter and in the 91 percentile for the last year.
- Heitman America's portfolio underperformed the NFI-ODCE Equal Weight Net by 1.54% for the quarter and underperformed the NFI-ODCE Equal Weight Net for the year by 1.83%.

Brokerage Commissions

Equity trades were directed to sixty-nine brokerage firms chosen at the discretion of the Plan's two U.S. equity separate account managers, Smith Graham & Company and Cadence Capital Management (this account was closed in July 2014).

Through the course of the year, the Plan also owned units in commingled equity funds managed by American Century Investments, BlackRock Institutional Trust Company, Capital Group Cohen & Steers Capital Management, Dodge & Cox and State Street Global Advisors. Detailed information on those funds' individual security trades is not provided by the funds, and therefore those brokerage costs are not included in this report.

Commissions paid directly by the Plan in 2014 totaled $58,673. The twenty firms receiving the largest commission payments are listed below.

The Plan does not maintain any commission recapture, directed payment or "soft dollar" arrangements with regard to brokerage commissions.

Board of Trustees
City of Aurora General Employees' Retirement Plan
12100 E. Iliff Avenue, Suite 108
Aurora, Colorado 80014

Dear Members of the Board,

Subject: City of Aurora GERP -- CAFR certification per GFOA guidelines

We certify that the information contained in this report is accurate and fairly presents the actuarial position of the City of Aurora General Employees' Retirement Plan (GERP) for the plan year commencing January 1, 2015.

All calculations have been made in conformity with generally accepted actuarial principles and practices, and with the Actuarial Standards of Practice issued by the Actuarial Standards Board. In our opinion the results presented also comply with the Plan as amended and restated, and, where applicable, the Internal Revenue Code, ERISA, and the Statements of the Governmental Accounting Standards Board. The undersigned are independent actuaries and are experienced in performing valuations for large public retirement systems.

Actuarial Valuation

The primary purposes of the valuation report are to determine the adequacy of the current employer contribution rate, to describe the current financial condition of the Plan, and to analyze changes in the Plan's condition. In addition, the report provides information which may be useful in satisfying various accounting standard requirements, and it provides various summaries of the data.

Valuations are prepared annually, as of January 1st, the first day of the plan year.

Financial Objectives

The combined employer and employee contribution rate is 13.00% for the current fiscal year and is expected to increase by 0.50% each year until it reaches 14.00% in fiscal year 2017. These rates are intended to be sufficient to pay the Plan's normal cost and to amortize the unfunded actuarial accrued liability (UAAL) over a period not in excess of 30 years from the valuation date by making payments that are level as a percent of covered payroll.

The total annual required contribution for 2015 is 12.07% of pay. Thus, there is an anticipated contribution rate surplus of 0.93% for the year.

Funded Status and Actuarially Determined Contribution

Funded status is measured as the ratio of the assets to the liabilities. As of the valuation date of January 1, 2015 the actuarial accrued liability is $415.9 million dollars. The accrued liability grew from the 2014 amount of $395.1 million, and the accrued liability did not grow as much as expected. The actuarial value of assets increased, from $366.6 million to $400.7 million, and the assets grew more than expected. The unfunded accrued liability, which is the difference between the assets and the accrued liability, decreased from $28.5 million to $15.1 million. Finally, the funded ratio (the ratio of the actuarial value of assets to the actuarial accrued liability) increased from 92.8% to 96.4%.

The Actuarially Determined Contribution (ADC) is defined as the contribution necessary to pay the normal cost and an amortization payment on the unfunded accrued liability. For this plan, the amortization method is defined as a 30 year, level percent of pay method to be used in determining the amortization payment for the unfunded accrued liability. The employer normal cost is 4.60% and the amortization payment is 0.97%. The current actual employer contribution rate of 6.50% is greater than the 5.57% Actuarially Determined Contribution.

Benefit Provisions

The actuarial valuation reflects the benefit and contribution provisions set forth in the Plan. There are two tiers of benefits - one set for members hired prior to January 1, 2012 (Tier 1) and another set for new employees hired after December 31, 2011 (Tier 2). A summary of those key changes for Tier 2 participants includes:

- Normal retirement age is 67 (normal retirement age remains at 65 for Tier 1 participants);
- Vesting in the City’s matching contribution begins after five years of service (Tier 1 employees start with immediate 25% vesting);
- Early retirement reduction of 6% per year the member is short of normal retirement age or the Rule of 80 (Tier 1 employees may retire early with a 2% per year reduction for early retirement between ages 55 and 65);
- Cost of living adjustments on regular pension benefits will only be granted if the GERP Board determines they are affordable (regular benefits for Tier 1 retirees are automatically adjusted each year based on the Consumer Price Index);
- The Board has voted to freeze the increases on the supplemental $176 per month benefit indefinitely for both tiers.

Assumptions and Methods

Actuarial assumptions and methods are set by the Board of Trustees, based upon recommendations made by the Plan's actuary. The current assumptions were recommended and adopted by the Board based on the results of the Experience Study completed in 2013 and implemented with the January 1, 2014 actuarial valuation.

These assumptions are internally consistent and are reasonably based on the actual and expected experience of the Plan. The results of the actuarial valuation are dependent upon the actuarial assumptions used. Actual results can and almost certainly will differ, as actual experience deviates from the assumptions. Even seemingly minor changes in the assumptions can materially change the liabilities, calculated contribution rates and funding periods. The actuarial calculations presented in the report are intended to provide information for rational decision making.

Demographic Data and Asset Information

Member data for retired, active, and inactive participants as well as asset information was supplied as of the current valuation date, by the staff of the General Employees' Retirement Plan. We have not subjected either information to any auditing procedures, but have examined both for reasonableness and consistency with the prior year's information.

The enclosed exhibits provide further related information necessary to complete your filing. All other necessary information is available in the January 1, 2015 actuarial valuation report. The enclosed exhibits are as follows:

Exhibit 1: Summary of Actuarial Assumptions and Methods
2: Plan Summary
3: Schedule of Active Members
4: Schedule of Funding Progress
5: Schedule of Employer Contributions
6: Historical Supplemental Information
7: Solvency Test
8: Analysis of Financial Experience
9: Schedule of Retirees and Beneficiaries

We prepared the accompanying Solvency Test and the Schedule of Retirees and Beneficiaries but the Aurora GERP staff prepared the other supporting schedules in this section and the trend tables in the financial section based on information supplied in our report.

Please contact me at 720-274-7271 or leslie.thompson@gabrielroeder.com to answer any questions you may have and to provide additional information you may need.

Respectfully submitted,
Gabriel, Roeder, Smith & Company

EXHIBIT 1

Summary of Actuarial Assumptions and Methods

1. Investment Return Rate — 7.75% per annum (net of all expenses), compounded annually *(adopted effective January 1, 2014)*

2. Mortality Rates

   a. Healthy Lives (post-retirement) — Society of Actuaries' RP-2000 Mortality Table *(adopted effective January 1, 2014)*

	Deaths per 1,000 Lives	
Age	Male Participants	Female Participants
45	1.52	0.90
50	2.31	1.34
55	3.96	2.09
60	6.54	3.51
65	11.09	6.48
70	18.16	11.18
75	31.17	18.77
80	53.25	30.63
85	90.76	51.71

   b. Healthy Lives (pre-retirement) — Society of Actuaries' RP-2000 Mortality Table *(adopted effective January 1, 2005)*

	Deaths per 1,000 Lives	
Age	Male Participants	Female Participants
20	0.35	0.19
25	0.38	0.21
30	0.44	0.26
35	0.77	0.48
40	1.08	0.71
45	1.51	1.12
50	2.14	1.68
55	3.03	2.53
60	4.88	3.93
65	7.57	5.82
70	9.92	7.61

c. Disabled Lives (post and pre-retirement)

Society of Actuaries' RP-2000 Mortality Table
(adopted effective January 1, 2001)

	Deaths per 1,000 Lives	
Age	Male Participants	Female Participants
20	22.57	7.45
25	22.57	7.45
30	22.57	7.45
35	22.57	7.45
40	22.57	7.45
45	22.57	7.45
50	28.98	11.54
55	35.44	16.54
60	42.04	21.84
65	50.17	28.03
70	62.58	37.64
75	82.07	52.23
80	109.37	72.31
85	141.60	100.20

The post-retirement mortality tables for healthy lives were developed based on actual mortality experience included in the experience study as of December 31, 2012. As of that time, the table for male members included a 10% margin for future mortality improvements and the table for female members included an 8% margin for improvements.

3. Incidence of Disability Rates

As shown below for selected ages.
(adopted effective January 1, 2014)

Age	Disabilities per 1,000 Members
20	0.3
25	0.3
30	0.3
35	0.5
40	0.6
45	1.0
50	1.4
55	2.5
60	3.6

4. Retirement Rates

The following rates of retirement are assumed for members eligible to retire. *(adopted effective January 1, 2014)*

	Unreduced Retirements per 1,000 Members (after attainment of Rule of 80 or Normal Retirement Age)			
	Tier 1 Hired Prior to 1/1/2012		Tier 2 Hired After 12/31/2011	
Age	Males	Females	Males	Females
50	30	30	30	30
51	30	30	30	30
52-59	100	100	100	100
60	80	80	80	80
61	150	150	150	150
62	250	250	250	250
63	200	200	200	200
64	150	150	150	150
65-67	300	300	300	300
68-69	500	500	500	500
70-74	1,000	1,000	750	750
75	1,000	1,000	1,000	1,000

	Reduced Retirements per 1,000 Members			
	Tier 1 Hired Prior to 1/1/2012		Tier 2 Hired After 12/31/2011	
Age	Males	Females	Males	Females
50-54	20	20	15	15
55	30	30	25	25
56	60	60	25	25
57	60	60	25	25
58	60	60	25	25
59	60	60	25	25
60	60	60	10	60
61	60	60	125	60
62	150	150	150	150
63	60	60	150	60
64	60	60	150	60
65	n/a	n/a	300	300
66	n/a	n/a	300	300

5. Termination Rates (for causes other than death, disability or retirement)

Graduated withdrawal rates per 1,000 based on age are used for participants with five or more years of service. Rates for participants with less than five years of service are based on service only. *(adopted effective January 1, 2005)*

Years of Service	Male Participants	Female Participants
0-1	200	230
1-2	160	180
2-3	130	150
3-4	110	130
4-5	90	110

For participants with 5 or more years of service:

Age		
30	77	100
40	53	65
50	34	35
60	21	15

6. Salary Increase Rates

(adopted effective January 1, 2014)

Years of Service	Salary Increases
0-1	6.00%
2	5.50%
3	5.00%
4-7	4.50%
8	4.00%
9	3.75%
10+	3.25%

7. Total Payroll Growth Rate

3.25% per year (used in the amortization of UAAL) *(adopted effective January 1, 2014)*

8. Marriage Assumption

85% of participants are assumed to be married. Male members are assumed to be three years older than their spouse, and female members are assumed to be three years younger than their spouse.

9. Post Retirement Cost-of-Living Adjustment	3.25% per annum for Tier 1 base benefits and 0.0% for Tier 2 base benefits. 0.00% for supplemental benefits for all participants. *(adopted effective January 1, 2014 for Tier 1 base benefits and January 1, 2011 for supplemental benefits)*
10. Employee Contribution Rate	6.50% increasing by 0.25% each year up to a contribution rate of 7.00% in 2017. Rates beyond 2017 may increase or decrease by 0.25% each year depending upon the financial condition of the Plan. *(adopted effective January 1, 2012)*
11. Interest on Employee Contribution Accumulation	4.0% compounded biweekly *(adopted effective January 1, 2010)*
12. Lump Sum Elections	Terminated vested participants eligible for immediate retirement are 100% assumed to take a monthly annuity at retirement in lieu of a lump sum distribution. 12% of retirements from active service and 50% of terminations from active service are assumed to take lump sums. *(adopted effective January 1, 2009)*
13. Optional Form Election	100% of members who opt for a monthly annuity at retirement are assumed to elect the normal form of payment of a life annuity. The optional forms factors are based on an actuarial basis of 7.75% interest, RP-2000 Combined Healthy mortality, blended 50% male and 50% female, and a 3.25% cost-of-living adjustment for the base benefit for Tier 1 participants *(adopted effective July 1, 2014)*
14. Death Benefit Election	The first eligibility date after attaining the early retirement age.
15. Commencement Age for Deferred Benefits	Future inactive vested members and future disabled member are assumed to commence benefits at the first eligibility date after attaining Normal Retirement Age or Rule of 80 Retirement Date. Current inactive vested members are assumed to commence benefits at the first eligibility date after attaining early retirement age with a fraction assumed to retire at each eligibility age thereafter based on the retirement rates assumption in item 3.

Actuarial Valuation Method *(adopted effective January 1, 2003)*

The actuarial value of assets is calculated based on the following formula:

$$MV - (2/3) \times G/(L)_1 - (1/3) \times G/(L)_2$$

where:

MV = the market value of assets as of the valuation date

$G/(L)_i$ = the asset gain or (loss) (i.e., actual return on assets less expected return on assets) for the *i*-th year preceding the valuation date.

In no event is the actuarial value of assets less than 80% nor more than 120% of the market value of assets. Asset gains or losses prior to January 1, 2003, were spread over 5 years.

Actuarial Cost Method

1. The Entry Age Normal Method is used to determine Normal Cost, Accrued Actuarial Liability of the Plan and thereby the Annual Required Contribution. Under this method, the present value of each participant's expected benefits is determined, based on his age, service, gender and compensation. The calculations take into account the probability of a participant's death or termination of employment prior to becoming eligible for a benefit, as well as the possibility of his terminating with a service or survivor's benefit. Future salary increases are also anticipated. The present value of the expected benefits payable on account of the active participants is added to the present value of the expected future payments to retired participants and beneficiaries to obtain the present value of all expected benefits payable from the Plan on account of the present group of participants and beneficiaries.

2. The employer contributions required to support the benefits of the Plan are determined following a level funding approach, and consist of a normal contribution and an accrued liability contribution.

3. Under the "entry age normal" method, a calculation is made to determine the average uniform and constant percentage rate of employer contribution which, if applied to the compensation of each new participant during the entire period of his anticipated covered service, would be required in addition to the contributions of the participant to meet the cost of all benefits payable on his behalf.

4. The unfunded accrued liability contributions are determined by subtracting the present value of prospective employer normal contributions and participant contributions, together with the current assets held, from the present value of expected benefits to be paid from the Plan.

EXHIBIT 2

Plan Summary

All actuarial calculations are based upon our understanding of the provisions of the City of Aurora General Employees' Retirement Plan, in effect as of the valuation date. This summary does not attempt to cover all of the detailed provisions.

1. Effective Date: March 1, 1967. Amended and restated effective January 1, 2000. The plan was subsequently amended pursuant to Ordinances No. 2001-69, 2001-81, 2002-84, 2003-63, 2005-95, 2009-05, 2009-11, 2009-41, 2011-29, 2013-37 and 2014-17 (the most recent amendment was effective July 5, 2014).

2. Plan Year: Twelve-month period ending December 31st.

3. Type of Plan: A qualified governmental defined benefit retirement plan.

4. Eligibility: Career service employees excluding police, firefighters and temporary employees. Executives may elect to participate. The participation starts on completion of one hour of service.

5. Plan Tier: Members in the Plan prior to January 1, 2012 are Tier 1 participants. Members who first entered the Plan after December 31, 2011 are Tier 2 participants.

6. Employee Contributions: 6.50% of compensation increasing by 0.25% each year up to a contribution rate of 7.00% in 2017. Rates beyond 2017 may increase or decrease by 0.25% each year depending upon the financial condition of the Plan, but in no case would the rate increase above 7.00% or decrease below 5.50%. Rate changes are based on a decision flowchart designed to keep the funded ratio between 100% and 110%. The employee's contribution account is credited with interest at the rate of 4.00% compounded biweekly.

7. Earnings: Base salary payable to the employee including acting pay, longevity pay and 414(h) and 457 contributions and Section 125 elective pre-tax employee contributions. Overtime, accrued vacation and sick leave, and bonuses are excluded.

8. Employer Contributions: The city currently is contributing 6.50% of compensation. Contribution rates will increase or decrease based on the same schedule as employee contributions.

9. Credited Service: Credited service (for benefit calculation purposes) is granted on the elapsed time basis from employment date to termination date.

10. Vesting Schedule:

    a. For Defined Benefit: Participants are 100% vested in their accrued benefit after the completion of 5 years of credited service.

b. For Lumps Sum and Money Purchase Benefit:

(i) Employee Contribution Accumulation: Participants are 100% vested in their contributions and interest thereon at all times.

(ii) Vested Employer Contributions: Tier 1 participants are entitled to a 25% match of their Contribution Accumulation, plus 5% for each additional year of Credited Service earned, to a maximum of 100% after 15 years. Tier 2 participants are entitled to a 50% match of their Contribution Accumulation upon completion of five years of Credited Service, plus 5% for each additional year of Credited Service earned, to a maximum of 100% after 15 years.

11. Final Average Monthly Compensation (FAMC): The FAMC is the average of the highest 36 consecutive months of compensation earned during the last 10 years of employment.

12. Normal Retirement

Base benefit:

a. Eligibility: Normal Retirement Age is 65 for Tier 1 participants and is 67 for Tier 2 participants. A member may retire on or after the first day of the month coincident with or next following the date on which the participant reaches Normal Retirement Age or attains age 50 with age plus years of Credited Service totaling at least 80 (Rule of 80 Retirement Date).

b. Amount: The greater of

(i) 1.75% of FAMC multiplied by years of Credited Service

OR

(ii) The participant's Contribution Accumulation and Vested Employer Contributions paid in an actuarially equivalent monthly pension.

Supplemental benefit:

Retired participants with five or more years of Credited Service also receive a supplemental benefit equal to $176.00 per month. This benefit is reduced if the years of Credited Service are less than 20.

13. Early Retirement

a. Eligibility: A member may retire early after reaching age 50 with credit for 10 years of service.

b. Benefit for a Tier 1 participant: 1.75% of FAMC multiplied by years of Credited Service and reduced as follows:

(i) After age 55: 2% for each year prior to the earlier of age 65 or Rule of 80 Retirement eligibility.

(ii) Before age 55 with less than 25 years of Credited Service: 2% for each year less than 25 years of Credited Service (up to a maximum of 20%) plus 6% for each year prior to age 55.

(iii) Before age 55 with at least 25 years of Credited Service: 6% for each year retirement precedes the Rule of 80 Retirement Date.

c. Benefit for a Tier 2 participant: 1.75% of FAMC multiplied by years of Credited Service and reduced by 6% for each year retirement precedes the earlier of age 67 or Rule of 80 Retirement Date.

14. Disability Retirement

a. Eligibility: Termination from employment by reason of disability prior to and receipt of long-term disability insurance benefits from the city until the Normal Retirement Date.

b. Monthly Benefit: The disability benefit is determined using the normal retirement formula with additional service and (last) compensation credited during the period of disability. Benefit payments begin at the Normal Retirement Date.

15. Termination Benefit

Vested Deferred:

a. Eligibility: All participants who terminate after completing five or more years of Credited Service or becoming eligible for Normal Retirement are 100% vested.

b. Monthly Benefit: The Normal Retirement Benefit amount with the payments beginning on the participant's Normal Retirement Date. Participants with 10 or more years of Credited Service may elect to begin receiving benefits reduced as with early retirement any time after age 50.

Non-vested:

Those participants who terminate prior to completing 5 year of service will receive a refund of their Employee Contribution Accumulation and Vested Employer Contributions.

16. Death Benefit

a. Eligibility: Prior to completing 5 years of Credited Service: Refund of Employee Contribution Accumulation and Vested Employer Contributions.

b. Benefit: After completing 5 years of Credited Service: The participant's beneficiary will receive a monthly benefit equal to the Supplemental Benefit plus the larger of 60% of the defined benefit formula or the actuarial equivalent of the Employee Contribution Accumulation and Vested Employer Contributions. Benefit payments may begin at any time after the date the participant would have attained the earliest retirement age.

c. Lump Sum: A $ 6,250 lump sum death benefit is payable to the designated beneficiary upon the death of a retiree.

d. Cash Refund: If both the participant and the designated beneficiary (if any) die after payments commence and the total of all payments made to the participant and beneficiary are less than the sum of the participant's contribution accumulation and the participant's vested city contributions then a death benefit shall be paid to the estate of the last survivor. The amount of the payment shall be equal to the excess of the participant's contribution accumulation and the participant's vested city contributions over the payments already received by the participant and the beneficiary.

17. Normal Forms of Payment: Benefits will be payable for life. In the event the participant is married or a party to a State of Colorado civil union on the date of benefit commencement, the participant's pension shall be paid as an actuarially equivalent qualified joint and survivor annuity.

18. Optional Forms of Payment: Various optional forms are available and are equal to the Actuarial Equivalent of the Normal Form. Such form may be a joint & 50%, 75%, or 100% Survivor Annuity with Pop-up feature, a Ten or Fifteen Year Certain and Life Annuity, or a Partial Lump Sum up to 20%.

19. Cost-of-Living Adjustments: Retired Tier 1 members or their beneficiaries receiving benefits receive an automatic adjustment in their Base benefit and discretionary adjustment in their Supplemental benefit each January. For retired Tier 2 members or beneficiaries, adjustments to both Base and Supplemental benefits will be discretionary. All adjustments are capped at 5% per year.

EXHIBIT 3

Schedule of Active Members

DISTRIBUTION OF ACTIVE MEMBERS BY AGE AND SERVICE

Historical Supplementary Information

The information presented in the required supplementary schedules was determined as part of the actuarial valuation at the dates indicated. Additional information as of the latest actuarial valuation follows:

Valuation date	January 1, 2015
Actuarial cost method	Entry Age Normal
Amortization method	Level percent, open
Remaining amortization period	30 Years
Asset valuation method	3-year smoothing
Actuarial assumptions:	
Investment rate of return	7.75%
Payroll growth rate	3.25%
Projected salary increases	3.25% to 6.00%
Cost-of-living adjustments	3.25% on Base (Tier 1) 0.00% on Base (Tier 2) 0.00% on Supplemental

Statistical Section

In this section, financial data and Plan member information are presented graphically in order to illustrate trends over recent time periods.

The chart below shows how the GERP's net position has changed over the last ten years. This time period encompasses the 2008 financial crisis and the subsequent recovery in Plan investments. The increase or decrease for each year is displayed at the bottom of the chart.

Pages 88 and 89 illustrate the ten-year trends in total additions to and deductions from the Plan's net position.

Benefits and contribution refunds by type are detailed at the top of page 90. Monthly pension payments to retired members and beneficiaries comprised 88% of the Plan's total benefit expense in 2014. The ten-year trend in average pension payments appears at the bottom of page 90.

Information on pensioners currently in payment status is provided on page 91. Data as of January 1, 2015 is used for this analysis, consistent with the timeframe of actuary's annual valuation report. Page 92 shows the final average salary earned and monthly benefit received for pensioners who were added in each of the last nine years.

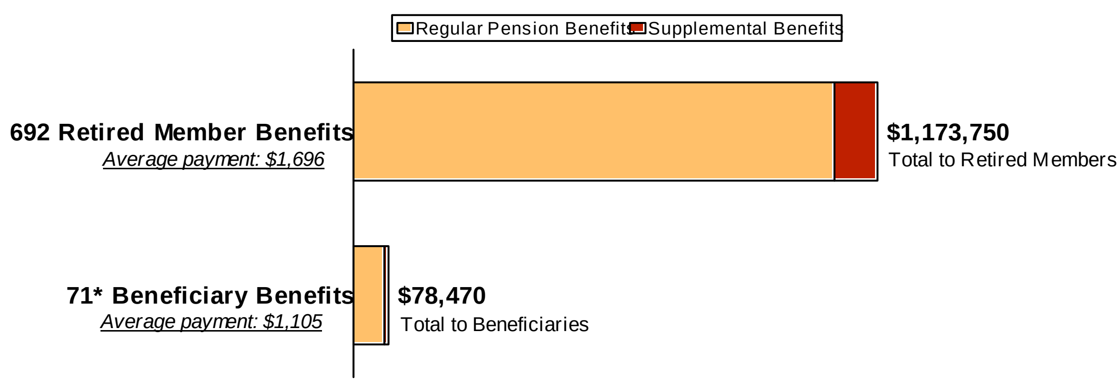
10- or 15-Year Certain and Lifetime Annuity	2	6	5	2	2	17
Partial Lump Sum, together with one of the annuities above	15	32	20	20	44	131

MONTHLY BENEFITS PAID TO PENSIONERS ON JANUARY 1, 2015



** Six pensioners receive benefits as both retired members and beneficiaries.*

The Supplemental Benefit was added to the Plan in 1986 to assist pensioners with their health care expenses. It does not represent an obligation by the Plan or the City to pay post-employment health care costs. Participants with 20 or more years of credited service receive a maximum of $176 per month; the benefit amount is prorated for shorter service.
